TIME FOR RESOLUTIONS

On this May Anniversary of the publication of "Dianetics: The Modern Science of Mental Health", fifteen years ago, it is a good time to check over and see how you've done on your resolutions in Dianetics and Scientology since you first heard of it.

Now, it is doubtful if there is anyone conversant with Scientology, who does not have some hope of advancing himself; and most people, at an anniversary or turning point, often resolve to take a course, or get some processing, or read this or that book; and some do what they resolve, and a lot of others do not, because of various urgencies in living getting in the way; etc., and there is no one around to help them to keep these resolutions.

Well, here is what we want you to do. First of all wipe the slate clean as of May 1965 or thereabouts, and make a NEW list of your resolutions for this 15th. Anniversary year of "Dianetics: The Modern Science of Mental Health". Now, we want you to make two lists. One for your general life and livingness, and the other for what you want to do in Scientology during this Anniversary year, whether is is to take a Personal Efficiency Course or take the HCA and HPA courses, or how far you want to advance your case, or which Scientology books to study - just where you want to go in Scientology during this 15th. Anniversary year, 1965.

Now, on your life and livingness list, put it in your desk, or pin it on your wall, or some such place, where you can find it to check it off, as your resolutions are carried out.

Then, on the Scientology Resolutions List, make a duplicate copy of it and send it to the Letter Registrar at the HUBBARD COMMUNICATIONS OFFICE, 1812 19th. Street, N. W., Washington, D. C. 20009.

We want that list of Scientology Resolutions for this Anniversary year, 1965, so that we can help you carry them out during the year. We will do everything we can to assist you.

And as you carry out the Scientology list, you'll see how your life and livingness list gets checked off, too. You see, doing one helps the other.

Natalie Fisher
HCO Area Secretary, D. C.

"There are three factors in Scientology which are of utmost importance in handling life. These three factors answer the questions, How should I talk to people? -- How can I sell people things? -- How can I give new ideas to people? -- How can I find what people are thinking about? -- How can I handle my work better?

"We call this in Scientology the A-R-C triangle. It is called a triangle because it has three related points. The first of these points is Affinity. The second of these points is Reality. The third of these points and the most important is Communication."

The above is quoted from:

HOW TO LIVE THOUGH AN EXECUTIVE

by L. RON HUBBARD

THE TEXTBOOK OF COMMUNICATION FOR BUSINESS.

"The subject of communications has not been thoroughly investigated at any time by any man. Only now do we begin to investigate it and to formulate the principles and practices of communication. It is expected that this study will result in the creation of a profession of communicators, which will serve industry, commerce and government to make communications flow.

"Communications could be said to be the study and practice of interchanging ideas, individual to individual, individual to group, group to individual, and group to group. It has not been clearly understood in the past that the failure of a group to communicate ideas within itself results in the failure of the group, that the failure of communication between the group and its leader results in the failure of leadership. Uniformly, throughout industry and commerce, breakdowns which are blamed on poor leadership, insubordination, or general ineptness may be attributed correctly to failures of communication."

The above is an excerpt from this book. How to achieve good communications is fully explained in it.

DIANETICS '55 by L. Ron Hubbard

THIS IS THE BOOK ABOUT THE COMMUNICATION CYCLE. Here follows a brief exerpt from this book:

"A man is as dead as he can't communicate. He is as alive as he can communicate. With countless tests, I have discovered to a degree which could be called conclusive, that the only remedy for livingness is further communicatingness. One must add to his ability to communicate."
